Efflorescence Remover

Summary

Efflorescence Remover is a professional grade cleaner that removes naturally occurring efflorescence and cement residue hazing caused by stabilizing sand from block paving. Independent tests confirm that this product dissolves more calcium oxide and efflorescence than Muriatic (Hydrochloric) or phosphoric acids, the active ingredients in virtually every other masonry cleaner on the market. The product is safe on your skin and won't etch glass or harm turf.
FOR PROFESSIONAL USE ONLY.

Uses

Interlocking concrete, brick and natural paving stones

Secondary Uses

Concrete, unpolished natural stone and clay surfaces

Features Benefits

Features	Benefits
Removes Efflorescence	Concentrated cleaner
Removes Haze	Dimishes concrete haze from stabilizing sand
Safer	Does not include acid; Safe on skin, plants, and glass
Professional Grade	For use by trained professionals only
Concentrate	Can be diluted or used neat
Easy To Apply	Read instructions
Specific	Designed to remove troubling white discoloration
Versatile	Works on multiple surfaces

Product Description

BP Pro Efflorescence Remover is designed specifically to remove the naturally occurring white mineral salt deposits called efflorescence, cement hazing caused by stabilizing sand that discolors the surface of block paving as well as other man-made building materials. Efflorescence Remover specifically targets and dissolves these crystalline structures better than acid-based cleaners. Efflorescence Remover is 100% acid free, so no neutralizing step is required. This also means it will not etch glass, is non-corrosive and will not harm plants or turf. Simply dilute, apply, agitate and rinse. Designed for professional use only.

Application Information

Remove visible signs of efflorescence by cleaning affected areas prior to sealing. Test the product in a small inconspicuous area. Work in small increments of approximately 50 square feet to manage the process better. Efflorescence Remover is formulated to be applied with a mist in an undiluted form using a pump sprayer. Let the solution stand for approximately 1 minutes or until foaming stops without letting the solution dry on the surface. Use brush or broom to agitate the surface and then thoroughly rinse after treatment. Surfaces with heavier buildup may require repeated cleaning. The product does not need to be neutralized. Efflorescence Remover will not remove oil or grease stains. Not for use on metals.

Coverage is 150 square feet per gallon

Packaging/Sizes

Package:	Per Pallet:
1 gallon / 4 per case	36
5 gallon pails	36
55 gallon drums	4

Shelf Life

1 year

Storage and Handling

Containers should be properly sealed and protected from freezing. Temperature should range between 50°F - 100°F

Product Warranty

Seller warrants that the product conforms to the published specifications. SELLER DISCLAIMS ALL OTHER WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. User is responsible for testing the product and for determining its suitability for their intended application.

Product Specifications

VOC:	0 g/l
Weight Per Gallon:	9.16 lbs
Flammability:	Not Flammable
Appearance:	Opaque Yellow Liquid
Odor:	Mild Soapy
Viscosity:	Thin Liquid
4 -1 gallon plastic jugs per case	10 Lbs
1 -5 gallon pail	45 Lbs
1 -55 gallon drum	480 Lbs
Shipping description: (CFR 49)	Non-D.O.T. Regulated
Required label	None
Required marking	None
HMIS Ratings:	H – 0; F – 0; R – 0
